## **IMPORTANT INFORMATION ABOUT THIS FAMILY HISTORY**

*This family history is not complete or correct.*

It can't be—time blurs the details, secrets remain hidden, investigations hit dead ends, babies are born, and people die, marry, and divorce with unpredictable frequency. It also takes time for family members to confirm or correct its contents.

Consequently, at best, this is a work-in-process...like the family itself.

### **WHO'S INCLUDED AND WHO'S NOT?**

For the oldest ancestor, the person at the start of the bloodline, and his descendants...

This family history **INCLUDES** all the known:

- Children, both male and female, including those who are:
  - Illegitimate
  - Legally adopted
  - Step (added to the family through marriage)
  - Taken in (unofficially added to the family)
- Brothers and sisters
- Legal spouses and other partners including those who are a:
  - Common law wife or life partner
  - Biological parent of a child who is not a biological child of the descendant
- Parents of a spouse or partner

This family history **EXCLUDES** all the known:

- Children of a descendant's brother or sister
- Brothers and sisters or a descendant's spouse or partner
- Grandparents of the descendant's spouse or partner

Note that these genealogical rules do not trace the line by the *family name*, nor do they favor *biological children*, nor do they make any distinction between *male and female descendants*.

### **HOW IS THIS FAMILY HISTORY ORGANIZED?**

...By the nuclear families—the descendant, his spouse, and his children—where each nuclear-family section contains:

- A family tree showing the descendant's family, his parents, and his spouse's parents
- Key facts about the members of the nuclear family (marriage date, birth dates, etc.)
- Photos and historical documents that apply to the nuclear family as a whole (to avoid duplication)

At the end of the document, there's:

- A *bibliography* that lists research sources

- A *name index* that lists all the names found in the family history
- A *place index*, and lists all the places found in the family history
- a traditional family tree (a descendant chart) that show everyone in the family

## **WHAT CONVENTIONS ARE USED?**

Most of the kinds of relationships in this history—parents, grandparents, great grandparents, brothers, sisters, aunts, uncles—are well known; however, there are some that are not:

- **Greats**  
Rather than repeat the word "great" for each generation, they are numbered. For example, a great grandfather is the first great grandfather, a great great grandfather is the second great grandfather, and so on. This applies to great aunts and uncles as well.
- **Cousins -**  
First cousins have the same grandparents; second cousins have the same great grandparents; third cousins have the same great great grandparents, and so on.
- **Removed**  
The parents of first cousins are first-cousins-once-removed, that is, one generation removed; the grandparents of a first cousin are the first-cousins-twice-removed, that is, two generation's removed, and so on.
- **In-Laws**  
The term in-law identifies a legal rather than a biological relationship, such as a mother-in-law or a brother-in-law. We often drop this when referring to an aunt, uncle, or cousin, or replace it with the words "by marriage" such as in "my cousin by marriage."

This history assigns a unique number to the oldest ancestor and his descendants. It appears in the family tree, various lists, and the text.

Descendants appear in birth order—oldest first.

The family history uses three kinds of images—profiles, pictures, and documents. Profiles are thumbnails faces, pictures are important images, documents are key records. All three are linked to an individual, but picture and documents are only shown once at the end of each family section to avoid duplication.

The abbreviations *[fnu]* and *[lnu]* stand for “first name unknown” and “last name unknown.”

I try to use the “best” pictures I have for descendants. By “best,” I mean the one that shows what the person looked like for most of his or her life. However, when all I have is a “kid picture” or an “old person picture,” that’s what I use.

## **HOW CAN I SEE THE FAMILY HISTORY ONLINE?**

...Through *ancestry.com* under the family name. I keep the family tree database on my computer and sync its public data with *ancestry.com*, I never sync or share the private date in the database—

current addresses, medical histories, birth certificates, divorce information, etc.

**HOW CAN I ADD, CHANGE, OR REMOVE DATA?**

...Send me an email or a letter. I will either make the change myself or add you an editor on *ancestry.com*. Ancestry.com will automatically sync your changes to the database on my computer.

If you want to maintain the family tree or a branch of the tree yourself, send me an email or a letter and I will send you the appropriate computer file.
