

**Descendants of
John Kelly and Julia Kennedy**

Data compiled by Matt Kelly
Family Tree Prepared by Jim Caldarella

IMPORTANT INFORMATION ABOUT THIS FAMILY HISTORY

This Family History is not complete or correct.

It can't be—time blurs the details, secrets remain hidden, investigations hit dead ends, babies are born, kids are adopted, people die, marry, divorce, and it takes time to find information and correct mistakes. It's continuously evolving...like the family.

Who's included?

The oldest known ancestor and [if known] all his descendants (male and female), including his descendant's...

...Legitimate, illegitimate, legally adopted, informally adopted, and step child

...Legal spouse, common law spouse, partner

...Biological parent

...Spouse's or partner's parent

(This may result in the *Family History* containing male or female descendants who are not related by blood or carry the family name.)

How is this Family History organized?

It starts with a table of contents listing all families (not individuals) then comes a page that briefly describes the family's place of origin.

There's a section for each family that may identify or contain...

...The descendant, the descendant's spouse, and their children

...The descendant's and the descendant's spouse's parents

...Key facts about family members (dates, residences, education, employment...)

...Photos and documents of historical interest

There is an index of places and an index of individuals near the end. Finally, the *Family History* ends with a family tree.

How can I see the most current versions online?

To see this *Family History* use *ancestry.com*. The tree is listed under the family name.

How can I make changes or take over the Family History?

To make small changes send an email to me at jim.caldarella@gmail.com. I will either make the change myself or add you an "editor" on *ancestry.com*. (I can sync with *Ancestry.com* to update my database.)

If you want to maintain your family tree yourself, I will send you a file.

Introduction

The following pages list data for all known family members as of November 28, 2024.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

In the chapter titled "Family of the Starting Person" the ancestors of John Kelly and Julia Kennedy are presented in a kind of enhanced Pedigree Chart which displays the graphic representation of their direct-line ancestors and the children of the couple. This chapter contains information about the couple whose offspring are listed in the later chapters.

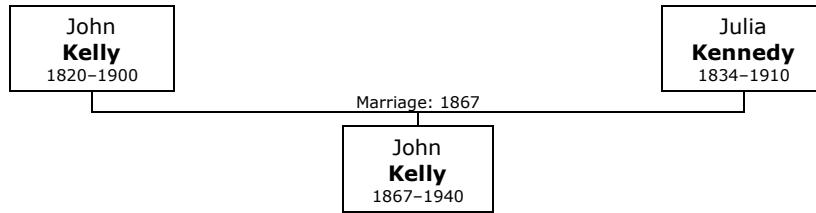

The chapter titled "Families of his Descendants" provides details (as known as of the publication date) for the offspring of John Kelly and Julia Kennedy. There is a chapter for each generation. Relatives are listed in the order of the nearness of their relationship.

Sources for the information provided are given in the footnotes.

This document reports the details of 146 individuals, of whom 78 are male and 68 are female. Of the 31 individuals with recorded birth and death dates, the average lifespan was 67.7 years. Of these, 18 males averaged 64.6 years, and 13 females averaged 72 years. The longest living male was James Joseph Hyde Jr. (1933–2021), who died aged 88. The longest living female was Marion Frances Munday (1932–2018), who died aged 85.
